I. - READ CAREFULLY THE TEXT OF 'THE IMPORTANCE OF RECYCLING' AND ANSWER QUESTIONS. CHOOSE THE CORRECT ALTERNATIVE (08 points)

When we recycle, our actions have a direct positive impact on Earth. Many of the things we throw away can be saved, and we can give them a new use. We do this to preserve natural resources, for example water, which can be polluted by plastics and toxic substances. We also recycle to reduce pollution. Instead of creating new products and polluting the environment in the process, we can reuse old ones while they fulfil their purpose. By recycling, we reduce greenhouse gases that increase global warming. Global warming causes serious weather problems which affect people and the Earth. There are many things we can recycle, for example plastic, paper,

metal, and clothes, among other things. If you want to start helping the planet and recycle, don't get rid of things you no longer use, because maybe it can be used for other purposes.

III. - READ CAREFULLY THE TEXT OF 'AROUND THE WORLD' AND ANSWER QUESTIONS. CHOOSE THE CORRECT ALTERNATIVE (08 pts.)

Different people from different parts of the world express their feelings and opinions in different ways.

In Chile, greeting somebody with a kiss on the cheek is normal, but in other countries, like Japan, it could lead to a misunderstanding. This is why it is important to know other people's boundaries. Learning how to express your feelings and opinions is very important to develop your own personality but listening to the other person is equally important.

If you visit another country, learn a few polite phrases, listen to traditional music, taste the food – every little effort can have a positive effect. After you understand a few basic rules, you will soon discover just how similar we all are.
